I Estimates of the Industrial School at Mysore
for the Year 1903-1904

Receipts

The out-turn is disappointing With better management it is hoped that the disproportion between Expenditure and income will be reduced

Expenditure

ITEM 1 Machinery and Tools The provision under this head has been reduced from Rs 1378 7/7 to Rs 586 Adequate reasons have been given for the decrease of Rs 792 This may be passed

ITEm 2 Stock materials The provision under this head is the same as in last year except that under cane etc a decrease of Rs 50 is proposed This may be sanctioned

ITEM 3 Scholarships

Under scholarships the last year's provision has been repeated To the proper utilisation of this grant, special attention is required A report as to how the grant of scholarships in the Weavers' Class and Artware Manufactory at Mysore is checked and as to the progress made by the holders of those scholarships, should be ~~submitted~~ called for

ITEM 4 Rent etc

Rs 600 for temporary sheds This may be sanctioned as there seems real necessity for them

The other items seem to call for no remarks

Under

II Under II Other Industrial Schools, III, Engineering School, Mysore, and IV, Scholarships the provisions proposed are in accordance with the order of the 7th April 1903 and may be sanctioned

A Sum of Rs 2090 has to be added to the Dfds' Estimates for constructing a brick kiln in the premises of the Industrial School (vide his letter No 104767 Ed 373 d 12-6 03) Flag C

Added as directed

Rel 24 6 03)

6 Budget Estimates of Industrial and other Special Schools in Mysore for the year 1903-1904

(Charge debitable to Local Funds General)

Till now only the Chas of the Mysore Industrial Schs were being met from the Local Funds General

The recent orders of Govt for the opening of (1) an Engineering school at Mysore (2) Industrial and Weaving schools in nine localities in the state authorize that the charges incurred on account of these Schools be met als from the Local Funds General Thus the estimates for the year 1903-1904 fall broadly under two heads viz (1) Industrial schools at Mysore proper and (2) other special schools

Firstly Industrial school at Mysore

(a)

(a) Receipts

The receipts expected from the several departments of the school amount to Rs 5000/- as against Rs 7205/- of 1902-1903 As the estimates are reported by the Dfl to be based on the figures of the actual out-turn during the 8 working months from the 1st July 1902,- they may be accepted.

(b) Expenditure.

The total expenditure is estimated at Rs 15,104 or Rs 957 less than that for the year 1902-1903

The variations under each head are fully explained by the Dfl in the memorandum accompanying the budget The estimates have been approved by the Committee

Secondly Engineering and other schools

Rs 1296 are expected from fees from the pupils joining the new Engineering school at Mysore

& Against this receipt, the total expenditure sanctioned in the recent orders of Govt is Rs 35,728 as detailed below —

I (a) Industrial schools to be opened at- Channapatna, Sagar, Chitaldrug, Chikmagalur & Shimoga at Rs 1500 each -	7500
(b) Weaving Schools to be opened at Hole-Narasapur Doddballapur, Chikankankalli & Mola Kal muru, at Rs 2500 each	10,000
(c) Initial cost of the above nine Schools at Rs 1000 each	9000
II Engineering School to be opened at Mysore	4008
III Scholarships (a) for Technical instruction outside Mysore 20 at Rs 20 each	4800
(b) for School masters to learn improved methods in silk industry in the Tata's Factory at Bangalore	420
Total Rs	35,728

Thus the total estimated expenditure payable from the Local Funds General for

for the year 1903-1904 9
comes up to Rs 50832 or
an increase of Rs 36063
over that of the year
1902-1903 (current),
the total estimated ~~exp~~
receipts being Rs 6296

submitted for orders

HLS
22/5/1903

23/5/03

I think the estimates ~~are~~ which
are carefully drawn up & explained
may be passed

With reference to your docket no 15-815 Ed 4-96 dated the 7th instant, I have the honour to submit for the approval and sanction of Government the Budget Estimates of all Industrial and other special schools in Mysore for 1903-04 maintained from Local Funds General with a memo. I have included in them the charges of the

Industrial schools and the Engineering school sanctioned by Government orders bearing no 14668—77 Ed A 4—96 and no 14694—6 Ed A. 4—96 dated the 7th April 1903

I have the honour to be,

Edn. 81]

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 10476-7 / 373 Bangalore 12th June 1903

From

H J BHABHA Esq, M A,
Inspector General of Education in Mysore,

To

H V Narsimhayya Esq, M A, B L,
Secretary to the Government of the Gen
General and Revenue Department
Bangalore.

I have the honour to inform you that at a meeting of the Committee of the Government Industrial School, Mysore, held on the 31st March last, it was resolved that a large Kiln to cost about Rs 1390 be constructed under the Superintendent's supervision with the help of the Executive Engineer, Mysore Division, the cost being met from a provision of Rs 750 made for the construction of a Potters oven under Item IV Rent to be supplemented by a reappropriation of savings under other heads of the Industrial School Budget for the current year. The original idea was to have the firebricks required for constructing the Kiln, made in the School

tself but as it has not been found practicable to do so without much loss of time, the required quantity of bricks has been ordered from the City Bricks and Tile Works at Bangalore and the construction of the Kiln according to the revised estimate which has been approved of by the Executive Engineer, will cost Rs 2090 or Rs 700 more than the original estimate. The work has been taken in hand and the foundation and basement have come up to ground level and the Executive Engineer thinks that it will be completed in about a month and a half. As the work will not be completed and paid for within the remaining few days of the current official year, I am unable to recommend a reappropriation of the savings for meeting the cost of the Kiln. I therefore request that Government may be pleased to sanction in the Industrial School Budget Estimates for 1903-1904, now before Government, a sum of Rs 2090 for the above purpose.

I have the honour to be,
Sir,
Your most obedient servant,
H J Bhabha
Inspector General.

A ter o 104 / 373 dated

the 12th June 1903 from the same Officer

requesting that a sum of Rs 2000/ na le

s nctioned for constructing a kiln in

the premises of the Industrial chool

at sore and included in the budget es-

timat s of the school for the ear 1903-

1904

----------000000------

Order thereon o 14 Dated July 0

n the budget submitted b the I

of Education with the first of the letters read above, the "Receipts" and "Expenditure" of the Industrial and other Special schools in Mysore for the year 1903-1904 are estimated as follows -

Receipts Rs 6296

Expenditure ' 50,832

2 A sum of Rs 2090 required for constructing a kiln in the premises of the Industrial school at Mysore referred to in the second of the letters read above is sanctioned

3 This addition raises the I G's estimate of the charges payable from the Local Funds General on account of industrial and other special schools to Rs 52,922 against an estimated receipt of Rs 6296 These estimates are passed The usual budget statements are appended and an abstract thereof is given below —

	Receipts				Expenditure		
	Heads of Receipts	Sanctioned Estimates for 1902-03	Sanctd Estimates for 1903-04		Heads of Expenditure	Sanctd Estimates 1902-1903	Sanctd estimates 1903-19
I	Industrial school Mysore			I	Industrial school at Mysore		
	1 Carpentry & Class	1240	1015		1 Machinery & Tools	1378	586
	2 Rattan work Class	352	493		2 Materials	2950	2900
	3 Black Smiths Do	1738	444		3 Scholarships	3672	3672
	4 Pottery & modelling Do	3000	2000		4 Rent etc	1050	2690
	5 Mechanics — Do	825	1048		5 Contingencies	370	625
	6 Wood carving — Do	50			6 Wages of temporary Estt	1270	1350
II	Fees expected from the Engineering school at Mysore	---	1296		7 Establishment	5088	5088
					8 Night classes	133	133
					9 Travelling allowa	150	150
				II	Other Industrial schools	26600	26600
				III	Engineering School, Mysore	-	4008
		7205	6,296	IV	Scholarships tenable in the Technical schools outside the State at Bombay in Mr Tata's Experimental Farm at Bangalore	16061	5222
							52,92

4 It is observed that the cost of the Weaving industrial school Mone are estimated at Rs 15 104 while the receipts expected from the sale proceeds of the articles manufactured therein are put down at Rs 5000 This out-turn would be unsatisfactory, but with better management it is hoped that the disparity between income and expenditure will be reduced

5 The proper utilisation of the scholarships granted requires special attention and a report should be submitted showing how the grant of scholarships in the weavers' class and the Artware manufactory is checked and the progress made by the holders of the scholarships should be submitted
